

Small, light and handy, yet robust and versatile – quality compact manual pressure sprayers 403 and 404.

A large filler neck enables the 1.25 l or 2.0 l tank to be filled cleanly and any residues can be easily drained.

The large pump lever can raise the internal pressure up to 2 bar. This lets you apply almost the entire content without additional pumping. The integral safety valve protects the appliance against excess pressure build-up.

- 1 Metal pump shaft
- 2 Safety valve
- 3 Adjustable nozzle
- 4 Large filling aperture
- 5 Ergonomic robust handle that can also be gripped with gloves
- 6 Transparent tank with fill volume scale: 1.25 l (403), or 2.0 l (404)
- 7 Sound footing thanks to three support legs
