

Gardening made easy: The large wheels of the SOLO 453 trolley sprayer make it easy to pull along, no lifting, whether moving through a garden or transporting. Yet the use of aluminium for the height-adjustable handle keeps the weight right down.

The dry weight is a mere 3.5 kg. Just a few pump strokes are enough to build the necessary pressure inside the 11 l tank. The robust and large handle is big enough to be securely gripped with gloves. The same applies to the handle with soft grip sleeve. A spiral hose provides the necessary reach.

453

- 1 2.5 m spiral hose
- 2 Ergonomically shaped, adjustable handle
- 3 Quick-acting closure by twisting the handle
- 4 Large pump lever for easy pumping; with spray wand clamping retainer
- 5 Adjustable aluminium handle with soft grip sleeve
- 6 Sturdy spray wand
- 7 Adjustable universal nozzle
- 8 Safety valve
- 9 Large piston pump for building pressure effectively
- 10 11 l, UV-resistant, transparent tank for good visibility of media fill level
- 11 Transport wheels with good grip

MODEL	453
Capacity l (nominal volume)	11
Max. spray pressure bar	2
Dry weight kg	3.5
Transport wheels	Yes
Handle height adjustment	Yes (locks without need for tools)
Hose length m	2.5 (spiral hose)
Spray wand	Plastic, 40 cm
Nozzle	SOLO adjustable nozzle
Seals	Viton

Sample applications:

- Plant protection
- Medium-sized and larger private gardens
 - For decorative plants, shrubs and plantation
 - Weed control
