

These premium quality pressure sprayers are the right tool for professionals and offer 5 l, 7 l or 9 l capacity. A 340 cm³ pump generates a working pressure of 3 bar after astonishingly few strokes. The sprayers are extremely robust, easy to use and cleaning is straightforward. They have the reputation as being No.1 sprayers in the Australian market. The current fill level of spray medium can be checked easily and directly on the tank. These models possess some premium quality features such as spray wand over 50 cm long, robust handles with an optional pressure gauge and a selection of spray nozzles. UV-resistant plastics promise robustness and a long service life for these sprayers. The thick wall makes the tank almost indestructible.

- 1 Flat jet & hollow cone nozzle
- 2 Clamps for securing plastic and brass spray wands
- 3 Quick-acting closure by twisting the handle
- 4 Safety valve automatically compensates in the case of excess pressure inside the tank
- 5 Extra large piston pump – operating pressure achieved after just a few pump strokes
- 6 Robust spray wand
- 7 Practical strap
- 8 Clearly visible spray medium level
- 9 Ergonomically shaped handle
